

Associate Medical Writer

If you are looking for a position in a growing company where you can join in the role of Associate Medical Writer working on projects that make tangible differences in the lives of patients with rare disease, keep reading!

Role

As an **associate medical writer** with Azur Health Science you will assist our clients with the development of high-quality medical document deliverables for the preparation of regulatory and other medical communication content in accordance with applicable internal, external, and international guidelines and regulations.

Azur's Mission

At Azur Health Science we are not only specialists - we are advocates. Historically, rare disease has been overlooked, often seen as too complex or unprofitable to address. Today we see incredible progress, but there is still much more to do.

Our mission is to be part of this progress by dedicating our expertise to this field. We aim to accelerate access to life-changing treatments for patients who have waited too long. Every rare disease deserves attention. Every patient deserves hope.

Key Responsibilities:

- Prepare a variety of regulatory documents (such as clinical trial protocols, Investigator Brochures, clinical study reports, scientific advice, and submission documents) and some medical communications documents (such as publications and literature reviews).
- Advise client teams regarding the medical writing content of documents, ensure compliance with SOPs and relevant national and international guidelines.
- Ensure the smooth running of a project, including understanding and managing project scope, timelines, and the impact of any changes or new requests.
- Interact directly with client teams, developing relationships and open collaboration.

Experience:

- ≥ 2 years of experience in a role that required considerable work involving scientific writing in English.
- ≥ 2 years of experience in an English-speaking professional environment.
- ≥ 2 years of experience in a role that required considerable interaction and communication with multiple stakeholders.
- Experience as a medical writer is not obligatory.

Qualifications:

- Higher level degree (Bachelor's/Masters) in a science or language discipline.
- An eye for detail yet an ability to let go of perfection.
- Impeccable written and spoken English.
- Understanding of and adaptability to different personalities and cultures.
- Ability to accept different learning styles, including learning through mistakes.
- At ease with communicating internally and with multiple-stakeholder client teams.

Skills & Attributes:

- Excellent interpersonal, verbal, and written communication skills with meticulous attention to detail.
- Ability to produce clear, concise scientific writing in English.
- Ability to follow and work according to the guidance and regulations of the industry, such as Good Clinical Practice and data confidentiality and privacy regulations.
- Ability to synthesise data, and non-clinical and clinical concepts from a broad range of disease areas.
- Ability to form strong collaborative relationships while working effectively in cross-functional, remote, geographically and culturally diverse teams.
- Strong project management skills to run and organise project teams empowering them to produce multiple tasks within agreed timelines.
- Ability to think through and work around problems logically in response to changing conditions.

Why Join Azur?

- A rare opportunity to be part of a highly skilled team within a dynamic, customer-focused environment.
- Work on impactful projects in rare disease and cutting-edge therapies.

Job Conditions

- Location: flexible - remote (France or Germany) or hybrid from our office in Cernay (68)
- Contract:
 - Full-time, CDI, cadre, forfait jours (FR)
 - Full-time permanent 40h/week (DE)
- Start Date: March or April 2026
- Salary: Starting gross annual salary of €37,000
- Competitive compensation and benefits package
